The new facility will boast improved swim facilities, along with new spray features, playgrounds and other basic comforts. See the Aquatics section for information about memberships and swim classes at Roberto Clemente Pool.

Finally, follow our new Twitter account @IslipParksRec. We will be sending out reminders about registration deadlines, upcoming events, and other valuable information.

SPRING TENNIS LESSONS

Presented by

Long Island Foundation for Education & Sports

The 10 and under tennis follows the same logic as other youth sports like baseball and soccer. We use kid-sized courts and equipment. The balls bounce lower and don't move as fast through the air and are easier to hit. That means kids will have more fun and less frustration. Whether you are a beginner or have taken lessons, our new Junior Team Tennis Program for ages 11 and older will have you playing on your very first day. Modified scoring is used to give each player at each level the ability to earn points and contribute to their overall team score.

MAIL-IN REGISTRATION ONLY: Send completed registration form and payment to Town of Islip, Sports Office, East Islip, NY 11730. Make checks payable to Town of Islip.

THE FEMININE EMBRACE:

Mandala Drawing for Self-care in Celebration of Women's History Month

With Stephanie Condra

Learn to make art with the sole intention of quieting the mind, connecting to yourself, and creating an image of your own wholeness. For thousands of year's circular mandalas have been part of sacred Hindu and Buddhist traditions, and more recently used as a technique of self-growth, restoration and understanding within Jungian psychoanalytic approaches. With its associations to cycling, unity, focus, fullness, and protection, creating an image within a simple circle becomes a tool for the busy and over-stressed modern woman to care for and engage with herself in a relaxing process of self-discovery. Within a supportive group format encouraging creative expression at any level of experience, explore mandala drawing and painting techniques in large and small scale, collaboratively and individually; leave feeling peaceful and revitalized to celebrate yourself during Women's History Month.

Saturdays: 10:00 p.m. - 12:00 p.m.

Session A: March 1, 8, 15, 22, 29

Fee: \$100 per session

UPCOMING EXHIBITS IN ISLIP ART MUSEUM

Shock –U- menteries

Jan 19 - March 30, 2014

Reception: February 2 from 1-4pm

Curated By Beth Giacommo

Appealing site specific installations created solely for the IAM are intended to lure the viewer in, yet upon further examination one encounters a thought provoking work and must explore the artists' reaction to disaster whether it be personal, local, national or worldly.

REDACTED: connecting dots in a shifting field

April 13 - June 1, 2014

Reception: May 4 from 1-4pm

Curated By Janet Goleas

REDACTED is an exhibition concept encompassing the sort of editorial decisions that are manifest in myriad representations such as literature, current events, historical documents and aspects of contemporary life in general. The term "redaction," often used synonymously with "censorship," is complex in meaning. Through multiple redactions literature can be morphed, history rewritten, entire hypotheses obfuscated, disguised, thwarted or converted. The visual brain can be upended with disarming, often thrilling, results. REDACTED will examine how revamped visual information can variously disguise, alter, enhance or camouflage meaning in painting, sculpture, video and photography

WINTER STORM AND EXTREME COLD

Winter is Upon Us

Winter storms can range from moderate snow over a few hours to a blizzard with blinding and wind-driven snow that lasts for several days. Extremely cold temperatures often accompany a winter storm, so staying warm and safe may become a challenge – if you are not prepared. So take precautions to ensure yours and your family's safety. The following are some terms and tips that provide you with measures to promote your own personal health and safety before, during and after a winter storm and extremely cold temperatures.

The Town of Islip asks that all residents please:

- **Remove cars from roads in anticipation of snow events. Vehicles parked on streets impede proper snow removal. Cars left parked on Town roadways during snow events are in violation of Town Code and subject to enforcement.**
- Remember, the town is charged with keeping the roadways cleared; we are unable to dig out driveways, mailboxes and fire hydrants. These are the homeowner's responsibility.
- Be aware that if snow removal is needed on private property, consider contacting local non-profits or churches for assistance in digging out driveways, mailboxes and fire hydrants.
- Refer any complaints of property damage to the Town Attorney's office.
- **Sign up for E-alerts from the Town of Islip at www.townofislip-nv.gov**
- Stay informed by referring to the Town website for frequent updates during all snow and other weather events.

BEFORE THE STORM

Know Winter Weather Terms

Winter Storm Watch: Indicates severe winter weather such as heavy snow or ice is possible within the next day or two. Prepare now!

Winter Storm Warning: Indicates heavy snow (greater than 6"), heavy sleet (1/2" or greater), or a combination of winter weather hazards is likely to occur. Stay indoors and adjust travel plans.

Ice Storm Warning: Heavy accumulations of ice will create extremely dangerous travel conditions, damage trees and likely cause extended power outages.

Blizzard Warning: Strong winds of 35 mph or greater will produce blinding snow, near zero visibility, deep drifts and life-threatening conditions, especially for travelers.

Wind Chill Warning: Life-threatening wind chills of minus 25 degrees or colder.

Winter Weather Advisory: Indicates snow accumulation of 2" – 5", or a combination of winter weather conditions will cause significant inconveniences and may be hazardous, especially for travelers.

Freezing Rain Advisory: Light accumulations of ice will cause hazardous travel.

Wind Chill Advisory: Dangerous wind chills of minus 15 degrees to minus 24 degrees.

Freezing Rain: Precipitation that falls from clouds as rain, but freezes into a glaze of ice on ground-based objects (trees, power lines, roads, cars, etc.).

Sleet: Small pellets of ice created by frozen raindrops. Sleet bounces when hitting a surface and does not stick to objects.

Wind Chill: A calculation of how cold it feels outside when the effects of temperature and wind speed are combined. **Wind chill ONLY applies to bare, human skin.** The effects of wind chill are different for animals, and do not apply to non-living objects.

WINTER STORM AND EXTREME COLD

Have a Winter Survival Kit for Your Home on Hand

Food that needs no cooking or refrigeration such as crackers, cereal, canned foods, and high energy foods such as granola bars and dried fruits.

Water stored in clean containers or purchased bottle water – 5 gallons per person is recommended – in the event your water pipes freeze or rupture.

Medications and special need items for babies, the disabled or elderly.

Create a Winter Weather Emergency Supply Kit

Alternate way to heat your home during a power failure – dry firewood for a fireplace or wood stove, kerosene for a kerosene heater, space heater with automatic shut-off switch and non-glowing elements;

- Charged cell phone
- Blankets/sleeping bags
- Flashlight with extra batteries
- Matches and/or lighter
- Multi-purpose, dry-chemical fire extinguisher
- First Aid Kit
- Battery powered radio with extra batteries
- Non-electric can opener
- Pocket knife
- Snow shovel, rock salt and sand

Prepare Your Vehicle

- Check your wipers, tires, lights and fluid levels.
- Lubricate door and trunk locks with lock lubricant to prevent from freezing.
- Fill up your gas tank.
- Travel during daylight hours on main roads and don't travel alone.
- Carry a winter storm survival kit in your vehicle (Cell phone & charger, blankets, flashlight, first aid kit, knife, water, extra clothing to keep dry, paper towels, sack of sand, shovel, windshield scraper and brush, tool kit, tow rope with loops, booster cables, water, compass and road map).
- Provide your itinerary to a friend, relative or co-worker. Include information on your destination, the routes you will travel, and when you expect to arrive.

DURING THE STORM

At Home

- Stay indoors and minimize travel.
- Listen to local news channels for critical information. Be alert to changing weather conditions.
- Close rooms that do not require heat to ensure that your home retains warmth efficiently.
- When using alternative heat from a fireplace, wood stove, space heater, etc., use safeguards and ensure proper ventilation to avoid carbon monoxide poisoning.
- Refuel kerosene heaters outside and keep them at least three feet away from any flammable object.
- Keep winter clothing and blankets on hand.
- Stay hydrated.

WINTER STORM AND EXTREME COLD

If You Must Drive

- Buckle your seat belts.
- Be prepared to turn back and seek shelter if conditions become threatening.
- Roadway conditions may vary depending on the sun, shade or roadway surface. Watch for slick spots especially under bridges, on overpasses and in shaded areas.
- If the pavement is snow or ice covered, start slowly and brake gently. Begin braking early when you come to an intersection. If you start to slide, ease off the gas pedal or brakes. Steer into the direction of the skid until you feel you have regained traction, and then straighten your vehicle.
- If your vehicle becomes stuck in the snow, contact a towing company, but be prepared to wait for several hours. If you can be safely pulled out by another vehicle, make sure you use tow ropes with loops on the ends. Avoid chains or hooks if at all possible, since these can slip off and recoil very quickly, causing injury or death.
- When a snowplow is coming toward you, allow plenty of room for the truck to pass. When the center line is being cleared and salted, the plow tip may be on or over the line.
- When you approach a snowplow from behind, pass with care and only when you can see the road ahead of the truck. You should not try to pass in blowing snow; there may be a vehicle in that cloud of snow. Allow more distance than usual between you and the plow.
- Refuel often, keeping your gas tank near full to prevent ice in the tank and fuel lines, which could leave you stranded. Frequent stops also help relieve tense muscles.

AFTER THE STORM HAS PASSED

- Check your home. Proceed with caution when reentering your home if you were away during the storm, as there may be water damage or flooding.
- Check your plumbing. If there is damage to your plumbing from frozen or leaking pipes, immediately shut off the water. Assess potential structural damage.
- Check roof leaks or sags, external chimney damage and fallen tree branches that may have struck your home.
- Check for gas leaks, then ensure that electrical, water and sewage systems are functioning.
- As a precaution, boil any tap water you intend to use in order to eliminate harmful bacteria.
- In the event of a power outage, do not turn on your power breakers until after power has been restored. Once power has been restored, monitor performance by both sight and smell.
- If you see any sparks or smell anything burning, immediately shut off your power supply.

ONE LAST COOL TIP

Taking preventive action is your best defense against having to deal with extreme winter conditions. By preparing your home and car for winter emergencies, and by observing safety precautions during times of extremely cold weather, it is possible to reduce the risk of weather-related health and safety problems.
